

Dy's Liquid Bandage™:

The Astounding Benefits
in just 4 Months!

Before

After

DY'S LIQUID BANDAGE™ was developed when our paint stallion, Dynamite, attempted to jump a barb wire fence during a lightning storm. Dynamite ended up with an 8 inch by 4 inch wound in the hock area. The muscle was protruding and was severed in three places. The local veterinarian recommended that Dynamite be put down.

We began using **DY'S LIQUID BANDAGE™** and 4 months later Dynamite's wound had completely healed with hair growth and only a pencil width scar of 3 inches in length. There were no signs of proud flesh. Today the wound is not visible. Dynamite also has full capability of completing an active day.

Uses: Minor and major injuries, cuts and scrapes, rain rot, rope burns, saddle sores, skin disorders, hoof conditioner and moisturizer.

DIRECTIONS for Horses:

Apply a thin coat of
DY'S LIQUID BANDAGE™
1 to 2 times a day or as needed.

800-373-5971

DY'S LIQUID BANDAGE™

DY'S LIQUID BANDAGE™ acts as a bandage and works well on injuries that are difficult to wrap and keep wrapped.

DY'S LIQUID BANDAGE™ has been proven effective for all cuts or wounds, plus scratches, rain rot, rope burns, saddle sores and any type of skin disorder.

DY'S LIQUID BANDAGE™

is an all-natural herbal salve. Olive oil and beeswax have been combined to create the base. This allows the olive oil to carry the herbs deep into the wound, minimizing the occurrence of scar tissue. The beeswax covers the wound with a breathable, waterproof, flexible and protective coating that repels flies.

INGREDIENTS: Olive Oil, Beeswax, Pascalite Clay, Golden Seal, Bee Pollen, Yarrow, Chlorophyll, Oregon Grape, Cramp Bark, Shavegrass, Myrrh, Aloe Vera Oil, Vitamin E Supplement, Tea Tree Oil, Propolis, Calendula, Honey.

Customer Feedback for DY'S LIQUID BANDAGE™

“Meet Cheese (LG Azippas Wild Ace). He is a 7 month old registered paint colt. On Oct 25th, Cheese was playing with a bucket hook and hooked his right nostril on it. If you look closely at the picture on the right, it is hanging.

He ripped it from the inside out so the vet had to actually cut the skin more in order to sew the nostril back up to where it is suppose to be. The end result was what you see in the picture on the left.

Our vet, Dr. Hall of Kirkwood Vet, did an awesome job of reconstructing Cheese's nostril the best it could be done as he did lose some tissue. The next photo was taken approximately 1.5 weeks after the incident, and this is when I told my husband the next time he delivered to ABC in Osco to pick up this amazing ointment called **Dy's Liquid Bandage**. I told him how it worked wonders for my Arabian gelding's foot. He was unsure at first at how something could work that great but he said he would get some.

Another driver went to ABC instead of my husband so he picked it up for us and so began the recovery, immediately! I put **Dy's Liquid Bandage** on the first night heavily and the next week I put it on as needed. Within 2 days the healing was noticeable. The last picture was taken 2 weeks ago.

Dy's Liquid Bandage is amazing, as we never thought Cheese's nose would heal to what it looks like today, but thanks to the great people of ABC and their research, he healed quickly. His hair has grown back, and it will always look different just because he is missing tissue there, but what should have taken months to recover has only taken a month and it looks great.”

- Marcus & Jennifer Richardson

“I use and love **Dy's Liquid Bandage**. Its ability to quickly heal a wound in humans and animals is amazing! Plus being all natural I'm not afraid to handle it! I always have it in my medicine cabinet!”

- Stephanie
