PDG14-15

12 Stones Grassland Beef® introduces 12 Stones Organic Pellets (formerly CAL CUBES)

Now Made with Organic
Alfalfa and Organic Molasses!

An affordable, all natural, grass-based supplemental energy source for grass fed cattle during times of special need.

Uses:

- Assuring finish on grass cattle the last 45 to 90 days of finishing
- A nutritious reward to gentle and train cattle
- Balancing protein to energy on poor forage
- Extra energy for preconditioning during times of stress like transport or stockers going to grass
- Shorten breeding season by getting cows gaining prior to breeding despite forage quality
- Sustainable nutrition when Mother Nature throws a curve, like drought

12 Stones Organic Pellets

An all natural energy range cube for grass cattle

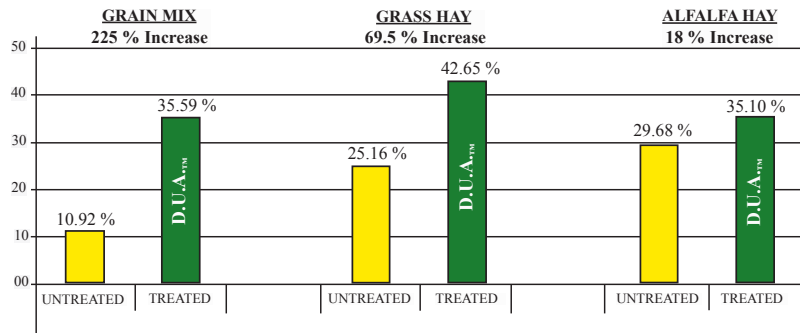

Ingredients:

- Organic Alfalfa
 - Organic Molasses
 - **DUATM** for optimum rumen function and fiber digestion
- DUATM** is an all natural, organic supplement that maximizes rumen function – it has proven to increase feed efficiency and allow optimal expression of growth potential, naturally.

Neutral Detergent Fiber Digestion

Independent Lab studies of D.U.A.TM effect on digestion of Neutral Detergent Fiber Digestion yielded the following results.

Recommendations:

- **Finishing cattle** – ½ to 1 # per head per day to optimize protein/energy ratio with forage for maximum finish during last 45 to 90 days.
- **Cows and bulls** – use as needed for training or supplementation during critical periods of poor forage.
- **Growing cattle** – ½ # per head per day when forage quality is not sufficient to allow optimum growth to fit marketing plan.

Why Have Supplements For Grass Fed Cattle?

12 Stones Grassland Beef® and **Advanced Biological Concepts®** have teamed up to supply nutritional tools for the grass cattle industry to maximize animal health and forage utilization. It is our goal to provide helps when the restricted environment does not supply what an unrestricted grazing environment could for a complete nutritional profile.

Soil and forage management are making great advances and are a primary way to achieve your grass management goals. Our goal is to provide tools that we have found to be needed to overcome adversity that is a normal part of life and nature. Animal health and nutrient dense food need not be compromised because of that adversity. Our products are grass based and all ingredients fit the natural grass source nutritional standards for grass finished beef.
