

Defending the right of quality food for animals (and humans) by implementing Applied Common Sense®

# www.abeplus.biz

# Products for Poultry - Swine

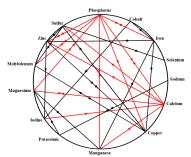

Pigs • Chickens • Turkeys

The animal feed products listed in this catalog are USDA certified organic and are identified with the USDA organic seal. All other products contain only certified organic agricultural products or ingredients that conform to the NOP's national list of materials acceptable for organic livestock production.

#### The Mineral World

Advanced Biological Concepts® has been dedicated for over 45 years to providing producers with nutritional technology to achieve maximum animal health for the production of drug and hormone free meat and milk. Animal health problems are due to nutritional deficiencies and related environmental conditions.

Advanced Biological Concepts® offers a complete line of USDA/NOP organic livestock production

**USDA** 

products.

**Our Mission:** 

To achieve maximum animal health with organic nutrients through Applied Common Sense, Technology and Services.

### ADVANCED BIOLOGICAL CONCEPTS® **MISSION STATEMENT**

Improve the quality of life for mankind; by improving the quality of life for animals through nutrition.

### **Guidelines for Achieving Mission Statement:**

- Always focus on the **cause** of a disease or problem, not the symptom.
- 2) Refrain from Research and Development involved in symptom relief.
- We believe most poor health problems in animals are due to a nutritional deficiency caused by 3) the confinement of animals, thereby, limiting their access to a variety of nutritional ingredients.
- 4) Often improvement in health can be dramatic when furnishing a balanced diet or adding nutrients that are lacking in the animal's diet. Not unlike giving food to a starving animal, this creates a dramatic improvement in health. This mode of nutritionally assisting animals must not be confused with drug therapy or medicine. We do not prescribe replacing the body's own mode of action through supplementation with synthetic chemicals and artificials components.

We supply the body with what it needs to repair itself.

5) We do not prescribe the use of poisons or mega doses of single nutrients to enhance performance.

> For more information or to place an order, call us at **1-800-373-5971** and we will be happy to serve you.

# D.U.A

### Why is D.U.A.™ the world's number one Feed Additive? **D.U.A.** $^{\text{\tiny M}}$ = **Dramatic improvement** in fiber digestion.

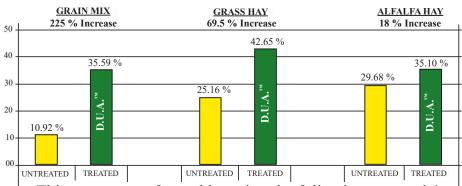

The Benefits of increased fiber digestion are: Increased mineral and protein assimilation.

### Benefits of this type of Mineral:

Highly available single molecule, chelated to carbon (sugar) by the plant. This is the type of mineral that animals were meant to live on, **NOT** ground up rock which is very low in availability.

### **Neutral Detergent Fiber Digestion**

Independent Lab studies of  $\mathbf{D.U.A.}^{^{\mathsf{TM}}}$  effect on digestion of  $\underline{\mathbf{N}}$  eutral  $\underline{\mathbf{D}}$  etergent  $\underline{\mathbf{F}}$  iber  $\underline{\mathbf{D}}$  igestion yielded the following results.

### This test was performed by using the following protocol:\* **GRASS HAY**

#### GRAIN MIX Control grain mix / fiber digestion = 10.92 % D.U.A.™ added / fiber digestion = 35.59 % increase = 225 %

Control grass hay / fiber digestion = 25.16 % D.U.A.™ added /

fiber digestion = 42.65 % increase = 69.5 %

ALFALFA HAY Control alfalfa hay / fiber digestion = 29.68 %

D.U.A.<sup>™</sup> added / fiber digestion = 35.10 %

increase = 18 %

### • Better FE/RG • Improved Physical Health • Maximum Genetic Potential Reduces waste and odor concerns.

### Makes your **waste** a **valuable** commodity.

See Lagoon Aid Document # L243F011006USA

Manufactured for: Advanced Biological Concepts® P.O. Box 27 • Osco, Illinois 61274-0027

Phone: 800-373-5971 • Fax: 888-770-0735 jgh@a-b-c-plus.com • www.abcplus.biz

<sup>\*</sup>These numbers were obtained through Invitro proceedures

### PROFIT WITH D.U.A.TM

**DAIRY:** Producers in the dairy industry have shown:

Using **D.U.A.**™ at the ½ oz/hd/day in your dairy ration increases the utilization of protein in the diet equal to the level of 3.1 pounds of Soybean Meal (48%).

Removal of Soybean Meal 3.1 pounds @ .58/ pound = \$1.798 Inclusion of D.U.A.<sup>TM</sup>  $\frac{1}{2}$  oz/hd/day = \$.0978 Savings = \$1.70

### For every \$1.00 invested in **D.U.A.**<sup>™</sup>, you **SAVE \$18.36**!

If ½ oz/hd/day saves 3.1 pounds of Soybean Meal, then 1 bag of D.U.A.™ saves 4,960 pounds (almost 2.5 ton) of Soybean Meal.

# PROTOCOL FOR D.U.A. TM

(Digestive Utilization Absorption)

FREE CHOICE MINERALS

D.U.A.<sup>TM</sup> NEEDS TO BE FED AT ALL TIMES WITH FREE CHOICE MINERALS

### Reason: D.U.A.™ increases digestion of fiber!

Fiber contains the major minerals, as well as minors. It is **poor** management to buy minerals when your feed stuffs (hay, grass and grains) can supply them. **D.U.A.**<sup>TM</sup> also makes **Free** Choice Minerals more available; this all means less usage and greater profit for you, the **Producer**.

### From Advanced Biological Concepts® Founder:

"We have always applied common sense to animal health by reducing obvious stresses and supplying the body with what it needs to repair and protect itself. We concentrate on the cause of a disease, not the symptom, and strive for maximum animal health with natural organic nutrients. Each individual farm within itself is a research farm, and we have over 45 years of research on thousands of farms. Results are the reasons we are in business today and will be tomorrow. We are looking forward to serving you so that animal husbandry is enjoyable and profitable. Try our products and observe the difference."
